## President's Message

Thank you to all who came out to enjoy our Red, White and Brew on the 4th. I am sorry I was unable to join you. From the reports, the rides and after party

sounded outstanding! Huge thank you to Peter Livingston, our Director of Events as well as Bill Branson, our Volunteer Director, our ride leaders and all the volunteers for creating a wonderful event!

We will be taking the annual SDBC photo in early August. The exact date will be announced after our board meeting next week. The photo will be used on our website and all other club-related media, so we hope to see all of you there!

Cheers,

## Thank You 2022 Sponsors!

We want to take a quick moment to thank our 2022 sponsors! We could not field the incredible teams of athletes, nor do all the other things we do without the strong support from our sponsors like our title sponsor, **Bonnici Law Group**, as well as **UC Cyclery**, **Pactimo**, **Rouleur Brewing**, **TeeDee**, **Intouch Chiropractic**, **'NSpire Happiness**, **Plant Power**, **Specialty Produce**, **Café La Terre**, **The Physical Therapy Effect**, and **Fluid Nutrition**. It takes an incredible amount of volunteer time and cash contributions to do it. **THANK YOU ALL!**

We're starting to work on 2023 sponsorships. If you would like to sponsor the club, have friends or business owners who might be interested, please drop a note to [sponsorship@sdbc.org](mailto:sponsorship@sdbc.org) or talk to me or one of the directors on a Saturday ride for information.

## Race Report

Cycle to the Sun - Sat 6/25/2022

Paia to Haleakala Volcano summit - Maui, Hawaii

35+ miles, 10,023' of climbing.

Mass start. 150 riders, 23 of whom were in my 60+ category. No distinction was made between categories during the race. Course is 99% steady climbing.

10 of us pulled away soon after the start which included 2 others in the 60+ category. I managed to stay with this lead group for the first hour until I was unceremoniously spit out the back. Ugh. Riding solo, for the next 1+ hour I was able to hold 10th place overall. However, approaching the last of the 3 feed zones at 8,000' elevation, I was no longer able to respond as riders passed by me. I managed to continue pushing through the final 2,000' of climbing to the summit and finished 21st overall and 5th place in the 60+ category.

After the race, I learned that the regular riders meticulously shave weight off their bikes so I decided to weigh my rental bike. It weighed about 5 pounds more than my competitors' ...
